SUMMARY

I am a passionate technology enthusiast currently in my second year of college, with a solid foundation in AI, IoT, and web development. I've worked on various real-world projects and have a strong desire to learn new technologies. My goal is to create smart, efficient solutions using AI and automation while continuously expanding my skills and taking on new challenges

EDUCATION

10th Grade

Kongu National Matric Hr sec School

📅 07/2022 - 05/2023 📍 India

Bachelor of Science in Computer Technology - UG (Information Systems)

Kongu Engineering College

📅 08/2023 - 05/2026 📍 India

TRAINING / COURSES

Design and Development of Mobile BoT's

1 credit course focused on mobile robotics and programming

Cyber Security and Privacy - NPTEL

3 credit course focused on cybersecurity fundamentals and privacy concerns

Edge Computing

2 credit course focused on edge computing fundamentals and real-time data processing.

PROJECTS

Various Projects

Involved in multiple real-world projects focusing on innovative solutions

- Developed an automated vehicle underbody monitoring system using Python
- Created a Smart Cane for Blind persons to enhance mobility and independence
- Designed a Smart Education Platform for students to facilitate learning
- Built a website for construction to streamline project management

TOOLS

⭐ **Power BI**

⭐ **Excel**

STRENGTHS

🏆 **Problem-Solving and Adaptability**

Strong problem-solving abilities and adaptability in various situations

⭐ **Leadership**

Demonstrated leadership skills in collaborative projects

🏆 **Teamwork**

Effective teamwork skills, collaborating with peers on various initiatives

KEY ACHIEVEMENTS

⭐ **Inter-Department Website Development Competition**

Secured 2nd place in the Inter-Department Website Development Competition

⭐ **Ruby Year of Celebration College Project Expo**

Participated in the Ruby Year of Celebration College Project Expo, showcasing an innovative project

SKILLS

Python SQL C Core Java

CSS HTML IoT JavaScript

AREA OF INTEREST

🛢️ **SQL**

I am eager to learn new SQL technologies and use them to improve data management.

</> **Python**

I enjoy solving problems with Python and applying new ideas to create innovative projects.
